Dear Hiring Manager,

I am writing to express my interest in the position at your organisation. With solid experience in manufacturing environments, I bring strong capabilities in production planning, machine maintenance and operational support across printing, cutting, sewing and recycling processes.

I have hands-on experience in daily production planning, quality control and maintenance of industrial machinery, including sewing machines such as the New Long DN2HS. My background includes machine installation and relocation, rigging support, piping systems, basic rewiring and shutdown maintenance, ensuring minimal downtime and efficient operations. In addition, I am skilled in procurement and outsourcing of spares, inventory control and supplier coordination to support uninterrupted production.

I am known for my strong problem-solving abilities, ability to work under pressure and commitment to safety, quality and efficiency. I communicate effectively with team members, contractors, customers and suppliers and I take pride in being reliable, dedicated and ethically driven in my work.

I would welcome the opportunity to contribute my technical expertise and operational knowledge to your team. Thank you for considering my application. I am available for an interview at your convenience and look forward to discussing how I can add value to your organisation.

Sincerely,
Steven Nattan
